## Chrome OS Systems Supporting Android Apps

Soon, you'll be able to use the Google Play Store and Android apps on many Chromebooks. Find out more on the [Google Chrome blog](#).

The Chromebooks, Chromeboxes, and Chromebases that will be able to install Android apps are listed below. While we won't be able to bring Android apps to every Chromebook ever made, we're continuing to evaluate more devices based on a range of factors, like processor type, GPU, and drivers. We'll update this list as new devices are added.

For the best experience with Android apps on Chromebooks, we recommend purchasing a device from the list below.

Even if your Chromebook isn't on this list, it will continue to get other new features and improvements.

### Chromebooks that will work with Android apps in June/July 2016

Android apps are now available on the M53 [dev channel](#) for the Asus Chromebook Flip.

Soon, support for Android apps will extend to two more Chromebooks:

- Acer Chromebook R11 / C738T
- Google Chromebook Pixel (2015)

### Chromebooks that will work with Android apps later in 2016/2017
